Technical Specifications

Product Name	Lap Lounge With Integrated USB Fan
Model Number	XB-1010-xx
Certifications	CE and FCC Class B
Cooling Fan Type	11 blade blower fan
Cooling Fan MTBF	30,000 hours
Cooling Fan Power Source	powered via laptop USB port, USB power cable included
Height Settings (inches above surface)	1.5 inches, 2.7 inches, 3.5 inches and 4.1 inches
Typing Angle Comfort Settings	4 degree, 9 degree, 12 degree and 16 degree angles
Weight	2 lbs (.91 kg)
Dimensions in Inches	17" (w) x 13.75" (d) x 1.5" (h) / 4.1" (h)
Dimensions in Millimeters	432mm (w) x 350mm (d) x 38mm (h) / 104mm (h)
Warranty	1 year
Physical Laptop Compatibility	Universal, including 19" laptops

WHY TO BUY

- **protects your health and comfort**– the ultra comfortable, personally adaptable Lap Lounge promotes proper head, neck, shoulder and wrist postures to reduce body strains, aches and pains
- **laptop runs cooler**– using a laptop in your lap, on a bed, in a chair or on the floor can suffocate the system, causing overheating and reduced processing speeds. The Lap Lounge eliminates the damaging effects of heat build up by bathing your computer in cool, ambient air.
- **universal** – the Lap Lounge is compatible with all makes and models of laptops including systems with 19" screens

FAQ

Is laptop heat bad for me?

In addition to just being plain uncomfortable, using a laptop in your lap can be damaging to your health – especially for men. A recent study reported in the Journal of Human Reproduction suggests that adolescents and young men who use laptops several times a day over many years face the greatest risk.

Is excessive heat bad for my laptop too?

Yes. Excessive heat build-up can damage your laptop and slow down your computer's processing speed.

Does it really make using a laptop more comfortable?

We certainly think so. The Lap Lounge raises your screen height to improve viewing comfort, places a "wrist friendly" typing angle on your laptop's keyboard and insulates you from uncomfortable and unhealthy laptop heat.
